An act to amend Sections 52890, 54726, ~~and 54734~~ 54734, and 58562 of the Education Code, relating to pupil retention.

LEGISLATIVE COUNSEL'S DIGEST

AB 841, as amended, Vargas. Pupil ~~motivation and maintenance~~ retention.

**Existing**

(1) *Existing* law, the School-Based Pupil Motivation and Maintenance Program and Dropout Recovery Act, authorizes school districts to establish and maintain school-based pupil motivation and maintenance ~~improvement~~ programs to improve the ability of schools to keep pupils in school and to reduce pupil absenteeism, truancy, tardiness, and school dropout rates. The existing act requires, for school-based motivation and maintenance programs, the schoolsite council to develop a school plan for increasing the retention rate of the school for all pupils with special emphasis on the needs of high-risk pupils. Existing law requires that plan to include a description of the manner in which the school district will utilize outreach consultations and prescribes the qualifications of outreach consultants. Under the existing act, a school may not operate a school motivation and

maintenance program unless an application to operate a school motivation and maintenance program has been submitted to, and approved by, the Superintendent of Public Instruction, and unless a newly developed plan or a revision of the previously approved plan has been approved by the local governing board and is retained at the schoolsite. Under existing law, the Superintendent of Public Instruction is required to perform various duties related to school-based pupil motivation and ~~improvement~~ maintenance programs.

This bill would, with certain exceptions, require each outreach consultant utilized for purposes of a school-based motivation and maintenance program to possess a Dropout Prevention Specialist Certificate from a California State University, as prescribed, and would make clarifying changes in related provisions. The bill would require a school-based motivation and maintenance program plan to include provisions for participation in specified activities organized and provided by the network of schools implementing pupil motivation and maintenance programs. The bill would authorize the Superintendent of Public Instruction to utilize the services of field personnel with expertise and knowledge of successful pupil motivation and maintenance programs to assist the State Department of Education in carrying out its duties related to school-based pupil motivation and maintenance programs.

*(2) Existing law authorized the certification of educational clinics that, among other things, recruited or received referral of high school dropouts, provided instruction in basic academic skills, provided employment orientation or reentry orientation, operated on a clinical client-centered basis, and conducted courses of instruction. Existing law made those provisions inoperative on July 1, 2003, and repeals them as of January 1, 2004.*

*This bill would make those provisions inoperative on July 1, 2007, and repeal them as of January 1, 2008.*

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. (a) The Legislature finds and declares all of the
- 2 following:
- 3 (1) The School-Based Pupil Motivation and Maintenance
- 4 Program and Dropout Recovery Act enacted by the Legislature in

1 January 1986, has proven to be effective in reducing dropout rates,  
2 increasing attendance, improving pupil achievement, and creating  
3 a positive school culture that supports intellectual, physical,  
4 emotional, and social development, as well as the well-being of  
5 high-risk pupils in low-performing schools.

6 (2) In the 1999–2000 school year, 450 schools participated in  
7 the Pupil Motivation and Maintenance Program, serving an  
8 estimated 413,000 pupils. Those schools perform significantly  
9 better than comparable schools that are not in the program by  
10 keeping pupils in school by reducing absenteeism, truancy,  
11 tardiness, and pupil suspensions for improper behavior. A recent  
12 evaluation of the program shows that it is particularly effective  
13 with Latino pupils, who comprise 69 percent of all pupils attending  
14 schools that participate in the program.

15 (3) The California Dropout Prevention Network, organized by  
16 the participating schools, has been an effective strategy for  
17 providing technical assistance and staff development services, and  
18 for assisting new schools in planning their schoolsite plans for  
19 dropout prevention and schoolsite coordination of categorical  
20 resources.

21 (4) In spite of the fact that participating schools are  
22 characterized by poverty and ethnic diversity, which can be indicia  
23 of low-performance, 65 percent of participating schools meet or  
24 exceed their performance targets, as compared to 52 percent of all  
25 other schools.

26 (b) It is the intent of the legislature to improve the program by  
27 implementing recommendations for program improvement and  
28 providing for qualified school personnel to assist the Department  
29 of Education in providing technical support, training, and program  
30 development assistance to participating schools.

31 SEC. 2. Section 52890 of the Education Code is amended to
